6 Dec 66

NOTE FOR: Mr. Chapman

1. I have attempted the following paragraph change in the TSD dispatch which may reflect the ORD/DDS&T position. Perhaps you may wish to include any words which will make this more palatable to TSD.

Paragraph 2:

25X1A

██████████ has prime interest in areas such as audio surveillance, agent contact systems, agent deployed or serviced technical surveillance systems, agent photography, sabotage and secret writing and in these areas will have direct contact with ██████████

25X1A

Paragraph 3:

25X1A

25X1A

25X1A

25X1A

The relations between ██████████ and ██████████ in areas of prime concern to ██████████ do not involve ██████████

Note: All of the other paragraphs can be included as they are.

25X1A

2. I guess TSD is determined to send over some sort of a dispatch, and the main thing is, as you pointed out, not to tie our hands in future activity over in ██████████. A flat statement of TSD's responsibilities and ORD's responsibilities should answer the problem. May I see you for a few minutes on this after the morning meeting, Wednesday.
